Global Development Operations Statistical Programming Communication

Dear SP team,

I wanted to provide you an update with some breaking news in relation to one of our leaders in Basel. .

Effective June 15, 2017, **Insa Gathmann** will move to our Biostatistics organisation. Insa will report to Emmanuel Zuber and will be based in Basel.

Insa is currently Global Head Statistical Programming Oncology, a role which she had been doing since September 2013. Prior to that she was Unit Head in Oncology Biostatistics for Tassigna/Glivec, Jakavi, Exjade and PKC412. She joined Novartis as a Statistician in 1992 and was Project Statistician for the development, submission and approval of Coartem, Glivec and Exjade prior to becoming Unit Head.

She will continue to support the transition of Oncology SP activities until August, and we will be in touch shortly to share more details on our transition plans.

I'm sure you will join me in thanking Insa for her exceptional contributions to Statistical Programming and in wishing her well for the future.

Best Wishes

Dermot
