**Subject:** Standard Announcement - CONFIDENTIAL

Dear Standard team,

After 2 years and half as Unit Manager of Standard Programming group, I am leaving to take other responsibility, always in Programming, coming back to Clinical Projects.

You made me proud to manage the Standard group and I would like to thank all of you for the excellent efforts you made in the standardization. You should be proud as well of all the achievements done so far. Standardization is a long way and I hand over to Mike to lead the group to pursue and to expand the Programming Standardization.

Please keep this **confidential** till a global communication is sent by Insa next week.

Thank you so much,  
Have a nice week-end,

**Best Regards,**

**Yvane Boudraa**
