Subject: Gargi portfolio transition (ai)

Dear Both,

Vinay kindly accepted to be a.i. DODU for Immunology.

As mentioned i would like to have Javier to be doing hands-on DODU role for Immunology under Vinay's authority -Vinay is the a.i. DODU for Immunology officially for our stakeholders.

Can you work this out as part of Javier guest program?

I am asking separately Sri to take Promacta (permanently) to simplify transition- Gargi : i will confirm this offline-

I hope to have the new DODU person in place sometimes in August so we are looking at a 3-4months transition.

Vinay – thank you so much for your flexibility and support.

G
