**Subject:** Statistical Programming Announcement - Varsha Mahajan

Dear all,

With mixed emotions I have to inform you that Varsha is leaving Novartis Oncology – it was her personal decision which she made in August. Her last day in the office will be the 30<sup>th</sup> Sep.

We are currently looking for a replacement Unit Head and hope to be able to announce that soon.

Varsha has been with Novartis for nearly 15 years and joined Oncology in 2010. She has contributed strongly to projects, as well as line function initiatives.

I would like to thank her for the valuable contributions to our organization and wish her all the best for her professional and personal future.

Best regards

**Insa Gathmann**
